### VOTE FOR THE U. F. A. Candidate

and Elect a Man Who Will at All Times  
Stand for Equal Rights To All.

SPECIAL U. F. A. NUMBER

IRMA, ALBERTA, WEDNESDAY, JULY 13, 1921

SAMPLE COPY

## Vote For J. R. Love, U. F. A. Candidate, the Unanimous Choice of the U. F. A. and U.F.W.A. Locals of Wainwright Constituency

**J. RUSSELL LOVE**

U. F. A. and U. F. W. A. Candidate for Wainwright Constituency.

To the Electors of Wainwright Constituency.  
Ladies and Gentlemen:—

Having been honored by being chosen as the U. F. A. and U. F. W. A. candidate for the coming election in the Wainwright Constituency. I solicit your loyal and earnest support in the present campaign. I appeal to the Merchants and Professional men as well as to the farmers, because the interests of one is the interests of the other. I believe the electors have the right to recall their representative if he proves disloyal to the cause for which he is elected. I believe the Farmer's Platform upon which I stand is founded upon sane and logical principles, and is designed for the general welfare and progress of all classes of people. If elected I may make mistakes. No man is perfect but I will do my very best to serve faithfully and wisely the interests of the people whom I should be called upon to represent.

Yours truly,  
J. R. Love

### To the Electors--Read This

One of the most important events in the dying hours of the last session of the Alberta Legislature was the withdrawal of a private bill to grant a charter to the Imperial Pipe Line Co., a subsidiary of the Imperial Oil Company, which in turn is a subsidiary of the Standard Oil Company. This was the most keenly contested measure of the session. The Charter would have conferred perpetual privileges of a monopolistic character, and its critics proposed amendments for the protection of the public which were not acceptable to the Company. Resolutions passed unanimously by the U. F. A. District Convention of East Edmonton and Medicine Hat and by the Central Executive expressing the most emphatic opposition to the clause in the bill which would have conferred monopolistic powers are admitted to have been the decisive factors determining the fate of the bill, which had been strongly supported in the legislature by certain members. As the attitude of the U. F. A. became known the opposition to the measure steadily grew in momentum.

In many of the States of the American Union pipe lines for the transmission of oil have been declared "Common carriers", that is to say, companies are compelled to transmit through the pipeline which they own any supplies of oil that may be offered, just as the railways must accept and deliver over their rails any traffic originating elsewhere than on their own systems. The bill to incorporate the Imperial Pipeline Company contained no such safeguard

against the exercise of a complete monopoly, though the company claimed the most extensive powers. After setting forth that the Company should have power "to lay out, construct, own, operate and maintain pipelines anywhere within the Province of Alberta, for the transmission of petroleum, natural gas, oil and all other mineral products capable of being transmitted by pipeline., the bill gave the right to the company "to acquire, lease own, build, use and operate, deal in or contract with reference to boats, ships or vessels of any description, wharves and docks and their facilities, including warehouses, to acquire lease, own, build and operate sawmills and to deal in and contract with reference to timber lands, timber licenses and timber rights, and to cut, render merchantable, handle or manufacture, timber, lumber and railway ties of all kinds and the products thereof." Other clauses gave the company power to acquire water rights, "to search for, recover, and win from the earth petroleum, natural gas, oil, salt, metals, minerals and mineral substances of all kinds," and to construct the necessary works, "to acquire and operate works for the development of power, light and heat, to use, purchase, sell, supply, lease or otherwise deal in or contract with reference to power light and heat."

The Company demanded the right to enter upon any lands to make surveys and select any sites they desired, anywhere in the Province, and to carry their pipelines across the lands of any person or company, to construct, "Wharves, docks and other structures, and to discontinue any works they might undertake whenever they might wish."

In the opinion of the critics of the bill, to grant these extensive powers in perpetuity without the inclusion of a "common carrier" clause, would have been virtually to place under the control of one of the most gigantic corporations in the world, many of the valuable mineral resources of Alberta. Under the terms of the bill the Imperial Oil Company would have been able to establish a complete monopoly.

Attention was drawn to the character of the private bill by W. M. Davidson M. L. A., through the press, as soon as the measure made its appearance in the Legislature.

It passed the first reading by 32 votes to 9. The Company carried on a persistent lobby in the Assembly and the nature of the response of some members to the canvas by oil company officials was the occasion of pointed comment. As soon as the bill came to the attention of the U. F. A. District Association of East Edmonton and Medicine Hat it was condemned, and the U. F. A. Provincial Executive waiting on members of the Government, made the position of the organized farmers clear. From this time forward the opposition to the bill in the Legislature grew in strength. The bill was vigorously opposed in committee. Premier Stewart announced that he would introduce a bill at the next session containing the "common carrier clause. The cabinet itself was divided, as not infrequently happens when private legislation is under discussion. There still appeared to be some serious danger of the bill being carried with minor amendments, however, when on April 18th a telegram in the following terms was dispatched to various members of the Legislature by President H. W. Wood and Mr. H. Greenfield in behalf of the executive, "United Farmers of Alberta representing eleven hundred locals are emphatically opposed to any general pipeline bill and insisting the present applicants apply for special bill clearly defining route and privileges desired, with common carrier obligations." This telegram was sent to Premier Stewart, Hon. J. R. Boyle, Hon. Duncan Marshall, Alex Moore, M. L. A., J. A. McCall, M. L. A., H. B. Moore, M. L. A., and Hon. C. R. Mitchell. On the evening of the same day the bill was withdrawn by the company. The Imperial Oil Company will continue its development work, according to an announcement made by officials of the company. It is now considered unlikely, however, that any attempt to mortgage the future of the Province to this powerful corporation, will succeed.

"The U. F. A. Executive have done much to fight the octopus of special privilege. Public opinion was created largely by certain newspapers or a certain newspaper which opposed the Imperial Pipeline Bill.

But the public opinion was also created largely by the United Farmers, who saw the danger in these near monopoly bills and began to pass resolutions. The public has been warned and now understands that the member who favours such legislation as this has much to answer for. In this the U. F. A. has done a good work." Morning Albertan, Calgary.

Vote for the U. F. A. Candidate and know that your interests and those of the Province are being safely guarded by a powerful democratic organization.

### J. R. Love, U.F.A. and U.F.W.A. Candidate for Wainwright Constituency, Starts Campaign at Irma and Jarrow

Large audiences attended the afternoon meeting at Irma, and the evening meeting at Jarrow on Saturday, July 9th. Mr. Love was introduced by Mr. J. G. Clark who is one of the leading U. F. A. men in the Province. Mr. Clark who has known the candidate since he was a boy, very fittingly described the candidate's educational training, and overseas experience which qualified him as an ideal standard bearer of the U. F. A. Organization in the Wainwright Constituency. Mr. C. T. Hill a prominent farmer of the district then gave an interesting address. He told the audience that he had never voted anything but a liberal ticket in all his life but this time he had broken out of the shell and saw things in a new light. He told how as a councillor of the Municipality he had had many experiences with the Provincial government. He gave evidence to prove that the Stewart Government Officials administered justice from a "swivel chair" without considering the merits of the cases brought to their attention. He dealt at some length with the hospital question and showed how the present government had repeatedly sidetracked the issue and at last had refused to give it any consideration at all. The Candidate was then called upon and after a hearty reception, he completely surprised the audience with his ability to present his arguments and ideas in such a logical and convincing manner. He dealt freely with the history and growth of the farmers political organization throughout Canada. He gave instances showing the part farmers had played in politics in former days and the movement of to-day was simply history repeating itself. He expressed it as the natural consciousness of the people of Canada, uttering itself in denunciation of corrupt practices in the present system of party politics. Mr. Love spoke of the present political battle as a struggle between the masses of the people representing the rural districts of Canada, and the forces of "special privilege" for the control of the political policies of the country. The moneyed interests were backing the old established parties while the rural people were supporting the farmers movement. After appealing to the electors to support the cause for which the farmers stood, the Candidate turned his attention to the Stewart Administration. He dealt at some length with the Imperial Pipe Line Bill. He showed how special privilege in the form of the Imperial Oil Co. had established their camp in the Lobby of the Parliament Building. They had gained their first objective when the government passed the Bill at the first reading 32 - 9. The Monopolistic character of the Bill was exposed through the public press by Wm. M. Davidson, M. L. A. The U. F. A. in different districts soon commenced to take an active part in the question. As an organization they objected to the Government Mortgaging the future of the Province to one of the largest Corporations in the world. Mr. H. W. and Mr. H. Grenfield sent telegrams to every Cabinet Minister on April 18th, objecting to the passing of the Bill. On the evening of the same day the Bill was withdrawn from the House. It has been the activity of the U. F. A. in looking after the interests of the people of Alberta that has caused the Government to adopt such unreasonable tactics in promoting the present campaign. Mr. Love then dealt with the Federal Housing Scheme condemning the Government for not taking advantage of an offer which would have given many a returned soldier and others in distress, a home of their own. It has been made a success in other Provinces but the Stewart Government had not confidence enough to attempt to help the returned men and others to earn their own home. After dealing with the Natural Resources question, the speaker condemned the Government for the inefficient and uneconomical method in dealing with the feed situation a year ago last winter. They had spent huge sums of money in order to give the farmers free freight rates while the farmers became the victims of speculators and profiteers. It took days to locate feed and when bought was often never delivered. The speaker maintained that if the Government had taken proper control of the situation the feed might have been obtained more quickly and more reasonably, and thus a great saving accomplished, not only for the cattle industry but for the farmers bank roll as well. Mr. Love then dealt with what he called the unjust and unfair manner in which the Government had dealt with matters relating

Wear FLEET FOOT right through the summer. Put on FLEET FOOT heavy shoes for work about the fields, garden and barn. Have the FLEET FOOT white shoes, oxfords and pumps to wear when work is done. There are FLEET FOOT styles for every summer need, for men, women and children. Put the whole family in FLEET FOOT this summer. Genuine FLEET FOOT shoes have the name **FLEET FOOT** stamped on them. Look for it.

Ask your Shoe Dealer for Fleet Foot and make sure you get Fleet Foot

## On Guard

"Eternal vigilance is the price of liberty." This is true in every walk and activity of life. It is true not merely of the nation, but of the individual. It is true in the realm of political reform, in the preservation of health, in the success of any business undertaking. The man who is indifferent to neglects and sleeps on his job, cannot succeed. Failure under such circumstances is inevitable in the long run.

Once again the farmers of Western Canada have seeded their acres. It is to be hoped that, bearing the above adage in mind, they have used only good clean seed, the best that could be obtained. It is to be hoped, also, that to the full extent of their available equipment and the time at their disposal, they have pursued the best accepted methods of farming and prepared the seed bed in the most approved manner.

The growing season (at the time of writing this article) has been all that could be desired, with copious rains and cool days which give promise of a strong rooting of the grain so that it will be in the best possible condition to withstand a dry period should such befall.

But "eternal vigilance is the price of liberty." There are many enemies to a growing crop in this western country. Farmers everywhere must remain alert and vigilant to combat these on every hand. There is the grasshopper scourge. Governments and municipalities have devised and outlined the best methods of fighting this pest, and those materials required to wage the battle have been procured. But official bodies cannot do it all. It remains for the individual farmer everywhere to do his share, to do it promptly and thoroughly. All the precautionary measures should be taken, and an ever watchful eye kept on developments. It is necessary to wage the battle against the grasshopper, not only to save this year's crop, but to insure the success of future crops by the rapid elimination of this danger requires.

Then there is the noxious weed. It takes many forms, but each and every variety is destructive, some, of course, more destructive than others. Noxious weeds have, through neglect, because of neglect in the past, ruined many a fine farm. They are still making headway, and a combined allied warfare by all agriculturists against them is one of the pressing needs of the present time. Noxious weeds cannot be fought by farmers singly. Despite the greatest care by scores of farmers, one or two indifferent and neglectful farmers can do irreparable damage to a whole district. The high winds of the west can seed an immense area of land with weeds just as effectively as a drill can seed them.

Farmers complain sometimes of excessive elevator charges (faking an undue toll from the receipts of their year's labor), or of the prevailing high freight rates which have the same effect; or of the loss of so many cents a bushel resulting from a sudden drop in the market price. It is important, however, that they should become fully seized of the fact that noxious weeds, by decreasing the yield from their acres is taking, year after year, a heavier toll than any one of these things, and frequently a heavier toll than all of them put together.

Noxious weeds impose a loss of millions of dollars annually upon the farmers of Western Canada through decreased yield. They impose a further loss in threshing bills. They add more loss in a falling off in grade. Finally, they are a huge bill of expense for work in cleaning the land once it has been fouled, while the capital and sale value of any farm is enormously reduced from the presence of weeds, not only on the farm itself, but in the surrounding district.

Every farmer, therefore, should not only make it his personal business to clean his own land, and keep it clean, but he should actively interest himself in the affairs of his municipality and see that, through the enactment and enforcement of necessary laws for the protection of all, his whole district is cleaned up and kept clean.

**Saskatoon Supplies Lamp Standards.**  
A shipment of fifty cast iron lamp standards by the John East Iron Works, of Saskatoon, to Regina to be placed on the parliament building grounds, is claimed to be the first order of this nature, to be placed west of Winnipeg. The lamp posts are nine feet high with a twenty inch base, weighing about four hundred and twenty pounds each.

### John Bull's Shirt.

Great Britain is still working along without a general strike, though her coal strike is still unsettled and she is loaded up with unsolved problems, especially labor problems. But even order of this nature, to be placed west of Winnipeg. The lamp posts are nine feet high with a twenty inch base, weighing about four hundred and twenty pounds each.

## World Happenings Briefly Told

Watson Batchelor's Glasgow cattle reports show that Canadian steers sold at 19 and 20 cents per pound live-weight.

Emma Goldman, deported to Russia, is said to be pleading with her friends to obtain permission for her to come "home" to the U.S. to die.

Two sisters just graduated from Athens, O., high school have attended school ten years without missing a day or being late.

Hon. S. F. Tolmie, minister of agriculture, declined to accede to appeals that the "short" berry box be permitted again this season.

A powerful "funeral trust" reaping a toll of millions of dollars from Chicagoans by maintaining high prices for funeral cars and hearses, is said to have been in operation in Chicago for years.

Six Japanese submarines have collided during naval manoeuvres off the coast of Kishiu, and one of them has been seriously damaged. As a result the proposed long distance cruise of these craft has been postponed.

Janitor of the Venter, N.J., city council chamber, is going to strike for bigger pay because, he says, after the League of Women Voters ends its meetings the floor is so littered with cigarette butts as to cause him extra work.

## PALE AND NERVOUS SCHOOL CHILDREN

Need Rich, Red Blood to Regain Health and Strength.

Many children start school in excellent health, but after a short time home work, examinations, hurried meals and crowded school rooms cause their blood to become weak, their nerves overwrought and their color and spirits lost. It is a mistake to let matters drift when boys and girls show symptoms of nervousness or weak blood. They are almost sure to fall victims of St. Vitus dance, or drift into debility that leads to regular troubles. Regular meals, outdoor exercise and plenty of sleep are necessary to combat the nervous wear of school life. But it is still more important that parents should pay attention to the school child's blood supply. Keep their child red and bright by giving Dr. Williams' Pink Pills and the boy or girl will be sturdy and fit for school. The value of Dr. Williams' Pink Pills in cases of this kind is shown by the statement of Mrs. Watson, Grand Falls, N.B., who says: "In the spring of 1919 my daughter Thistle, then 12 years of age, began to show symptoms of nervousness which developed into St. Vitus dance. She seemed to lose control of her limbs and at times every muscle in her body seemed to be twitching and jerking, and the trouble seemed to be growing worse. We finally decided to give Dr. Williams' Pink Pills, and the result was better even than we had hoped for, and she is now enjoying the best of health."

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

### It Had Been Used.

The young housewife, looking very pretty and workman like in a big green overall, was clearing out the pantry cupboard.

"Dickie," she cried to her young husband, who was smoking in the spick-and-span little drawing room, "I want you to bring me a mousetrap home tomorrow."

"But, Angel," cried the young man, "I brought you one home yesterday." "I know, pet," called back the young bride, "but that one has a mouse in it."—Spanish River News.

### Sewage Disposal on Farms.

The Bureau of Public Health has just issued a valuable bulletin dealing with the matter of treatment of sewage on farm homes. Sewage systems now in actual use on 72 farms have recently been examined, and the conclusions of the officials of the bureau, following this investigation, have been incorporated in the bulletin, which has a number of diagrams illustrating various systems suitable for differing conditions.

### Accidents in Saskatchewan.

Industrial accidents in the province of Saskatchewan during the month of April numbered 51, none of which were fatal. Of these 33 were accidents to employees on steam or electrical railways, and 18 amongst the other trades.

### All Alike.

If there's truth in the report that Levine has gone crazy, they won't be able to distinguish him from the rest of the bunch.—Atlantic Constitution.

Ask for Minard's and take no other

W. N. U. 1371

## Palpitation Of the Heart

Many people are kept in a state of morbid fear of death, become weak, worn and miserable, and are unable to attend to the household, social or business duties through this unnatural action of the heart.

To all such sufferers Milburn's Heart and Nerve Pills will give prompt and permanent relief.

Mrs. F. X. Gauthier, Tilbury, Ont., writes: "During 25 years past I was greatly troubled with palpitation of the heart, and sometimes so much so that those around me thought I would die at any moment, being so much weakened by the sharpness of the palpitation which would last sometimes up to 3 hours. I had the doctor who used to use Milburn's Heart and Nerve Pills. I began to use them at once, and at the second box I began to feel some relief, so I continued to use them according to directions and now I am perfectly well. Before using the pills I never weighed 100 lbs., now I weigh 117, and feel as if I were young although I am over 66 years of age."

Price 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## The Cattle Commission

Terms of Reference Important to Canadian Interests.

As Canada has a direct interest in the outcome of the investigation now being conducted by a special British Royal Commission in the matter of the cattle embargo, some importance attaches to the terms of the reference under which the inquiry is being made. The commission is composed of Viscount Finlay (chairman), Lord Kitchin, Sir Algernon Firth, Sir Harry Peat and Sir Arthur Shipley, and the reference is as follows:

"To inquire into the admission into the United Kingdom of livestock for purposes other than immediate slaughter at the ports, whether such action would increase and cheapen the meat supply of the country, and, if so, to what extent, and whether it was advisable, having regard to the necessity of protecting livestock bred in the country from the introduction of disease, and of restoring their numbers after the losses to which they were subject during the war."—Montreal Gazette.

The making of artificial pearls is a considerable industry in France. The French craftsmen obtain fish scales from the Baltic fisheries, and use these shelly scales to give glass beads the lustre of pearls.

Knicker.—That florist surely keeps in touch with the slogan, "Say It With Flowers."

Knicker.—What's his method?

Knicker.—Sends a bunch of forget-me-nots with each bill.

One of the most efficient wireless systems is the invention of Japanese electricians, who were among the first to experiment with radio-telegraphy.

## Wash Day and Backache

WASH day is the least welcome day of the week in most homes, though sweeping day is not much better. Both days are most trying on the back.

The strain of washing, ironing and sweeping frequently drags the kidneys. The system is poisoned and backaches, rheumatism, pain in the limbs result.

Kidney action must be aroused—the liver awakened to action and the bowels regulated by such treatment as Dr. Chase's Kidney-Liver Pills. This favorite prescription of the well-known Receipt Book author will not fail you in the hour of need.

One pill a dose, 2 or 3 a box at all dealers, or Edmundson, Bates & Co., Ltd., Toronto.

## "Your Teeth"

By Rea Proctor McGee, M.D., D.D.S., Editor of Oral Hygiene.

THE MAGIC OF THE TEETH.

Copyright, 1921, by Rea Proctor McGee.

No other person has ever seen a picture or a landscape or a beautiful face or a sunset just as you see it.

No one has ever heard a piece of music or a thunderstorm just as you hear it.

When you and your dearest friend read the same book or hear the same story you will always differ a little in your understanding of it.

This is because every impression that comes to you is moulded by your own personality. Your personality is like an export and import tax; it touches every act of life—it affects every impression, both coming and going.

Personality is the sum of all of your experiences and of your ideas and of your memories, plus your physical condition. Your appearance is a large factor in your effect upon other people; it is one of the great factors in your effect upon yourself.

We all love magic and the supernatural because the everyday humdrum of solid fact gets upon our nerves.

Fairy tales are not for children, they are for grown-ups.

We call them "novels" and we always expect the magical power of good to overcome the sorcery of evil.

Our heroes and heroines we always endow with beauty, health, energy or youth, because in our experience these conditions give a desirable personality and contribute to a happy present and a genial old age.

Our villains we endow with forbidding faces, crooked bodies, often with ill-health, because we know that these things warp the disposition and frequently change a pleasant personality into an unpleasant one.

Did you ever hear of a beautiful heroine or a manly hero whose smile showed a row of decayed teeth or of a famed gunslinger who never remembered how quickly "Dr. Jekyll's" even and beautiful teeth changed into protruding "snagle" teeth when he became "Mr. Hyde?"

Your mouth and teeth make up seventy-five per cent. of your facial expression. Who wants to look like "Mr. Hyde?"

### Belgian Consul For Alberta.

Appointment of H. Milton Martin as Belgian consul for the whole of Alberta has been made, according to official information received here from the Belgian consul-general at Ottawa. The order has been signed by the King of the Belgians and sent forward to the ambassador in London for King George to endorse.

### On the Marriage Day

Romance usually ceases and history begins, and sore corners begin to go when "Putnam's" is applied. It takes out corns, rashes, branches, stems—no trace of a single corn left after Putnam's Painless Corn Extractor has done its work, 25c at all dealers. Refuse a substitute.

### "Homing Squirrel" in B.C.

Many Attempts Made to Lose Him Have Failed.

A "homing" squirrel of more than ordinary sagacity and cunning is the subject of a great deal of interest in New Westminster, B.C. It took up its home in the rafters of the home of George H. Small some months ago with the evident intention of spending the remaining years of life there.

Various attempts to lose the squirrel proved fruitless. On one occasion it was taken to Vancouver and liberated in Stanley Park, but thirty-nine days later it was back in its New Westminster home.

"There is no doubt of the identity of the animal," said Mr. Small, "as he always comes to the same window for his food on his return, and then repairs to the same hole in the roof which is the entrance to his home."

The squirrel has now been taken to West Vancouver, and will either have to swim the inlet or come over on the ferry if he elects to return home.

Freedom from Asthma. Asthma is "one of the most distressing troubles, sudden in its attacks and prolonged in its agonies. Frequently many things are tried, but nothing seems to give hope of relief. Dr. J. D. Kellogg's Asthma Remedy can be depended upon. Do not fail to get at once a package of this uniformly successful preparation.

Expired.

**JOSEPH DROUIN**, of Montreal, declares he suffered six years with dyspepsia, but six bottles of Tanlac made a new man of him—Gained 35 pounds.

"I could hardly believe my own eyes when I stepped on the scales after taking six bottles of Tanlac and found I had actually gained thirty-five pounds in weight," said Joseph Drouin, 2194 A, St. Denis St., Montreal, who, for the past twenty-six years, has been passenger conductor on the Canadian Pacific Railway and is well and favorably known along the line of his run between Montreal and Mount Laurier.

"Before I started on this medicine I was in a bad way. For years I'd had to take my meals here, there and everywhere and, as the result of this irregular eating, my internal machinery got all out of working order. I lost all desire for food and what little I ate would form gas and bloat me up until I could hardly breathe. I became so nervous I couldn't sleep at all well at night and was often so tired in the morning I didn't care whether I took my train out or not. I fell off twenty-five pounds in weight and became alarmed about my condition, for I had tried all sorts of medicine without getting any relief."

"Then, one day I read a statement in the paper which decided me to give Tanlac a thorough trial. Well, I never would have believed any medicine could do a man so much good in such a short time. It quickly settled my stomach and gave me such an appetite that I could eat three good square meals a day and no longer have any trouble with indigestion or gas and I sleep so well at night, even when on the road, that I think it would take a collision to wake me up. I now turn the scales at one hundred and ten pounds, which is ten pounds more than I ever weighed in my life and feel better in every way than I have for a very long time. Tanlac is the best medicine I ever tried."

Tanlac is sold by leading druggists everywhere.

### A Giant Parachute

Could Lift Cabin With Passengers From Airplane In Distress.

A parachute large enough to lift the cabin complete with all the passengers from an airplane in distress was described by T. Orde Lees, in a lecture to the Royal Aeronautical Society in London.

The decision and operation were placed in the hands of the pilot, so that the passengers were not called upon to think for themselves.

During the war (the lecturer estimated) 200 British pilots jumped without parachutes from their burning machines at high altitudes rather than be roasted to death. All were killed. Nearly all would have been saved if they had had parachutes.

### WOMEN OF MIDDLE AGE

May Pass the Critical Period Safely and Comfortably by Taking Lydia E. Pinkham's Vegetable Compound.

Regina, Sask.—"I was going through Change of Life and suffered for two years with headache, nervousness, sleepless nights and general weakness. Some days I felt tired and unfit to do my work. I gave Lydia E. Pinkham's Vegetable Compound a trial and found good results, and I find it a very helpful spring tonic and useful for constipation from which I suffer much. I have recommended Vegetable Compound to several friends, and am willing you should publish this."—Mrs. MARY W. LEWIS, 810 Robinson St., Regina, Sask.

If you have warning symptoms such as a sense of suffocation, but faintness, headache, backache, dizziness, impeding evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness, inquietude, and dizziness, get a bottle of Lydia E. Pinkham's Vegetable Compound and begin taking the medicine at once. We know it will help you as it did Mrs. Lewis.

### Addressing Letters

System Used By Spain Must Save Much Time.

Is our method of addressing an envelope, I wonder, the best one? In Spain the method adopted is exactly the reverse to ours. The name of the country to which the letter is to be sent is written at the top of the envelope, the name of the town next, and on the following line the personal or private address, while on the last line the name of the addressee is inscribed. I suppose the sorter arranges his letters according to the name of the country first, town next, precinct of that town last, while the postman and the recipient only are concerned with the name on the envelope, so that the saving of time which this system must effect seems to contradict the impression that the Spanish are "inefficient." Can there be any reason not readily apparent, which has kept other countries from adopting this system?—The Westminster Gazette.

For years Mother Graves' Worm Exterminator has ranked as a reliable worm preparation and it always maintains its reputation.

### Information For Tourists

Canadian Pacific Railway Issue Directory of Hotel and Boarding Houses.

The Canadian Pacific Railway has recently issued a directory of Hotels and Boarding Houses in Canada located along its lines. This booklet gives the names of the hotel or boarding house, proprietor, whether American or European plan, number of rooms, rate per day, rate per week, and the distance from the station.

Information contained therein will prove invaluable to the tourist in planning a trip.

### Skeletons of

#### Warriors Found

Thought to be Soldiers of William the Conqueror.

Fifteen skeletons have been discovered at Willington Hill, Eastbourne, England, during excavations for road widening. An iron dagger was also found.

It is thought that the remains are those of warriors buried after the battle of Hastings in 1066. The hill is situated near Pevensey Bay, where William the Conqueror landed.

Twelve years ago, when similar discoveries were made, daggers were found in ribs and spearsheads in skulls.

### WHEN BABY IS ILL

When the baby is ill, when he cries a great deal and no amount of attention or petting makes him happy, Baby's Own Tablets should be given him without delay. The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach and thus drive out constipation and indigestion; break up colds and simple fevers and make teething easy. Concerning Mrs. Desire Hebert, Trois Puits, Que., writes: "I am well satisfied with my use of Baby's Own Tablets. I have found them of great benefit to my baby when he was suffering from constipation and I can strongly recommend them to other mothers." The Tablets are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The patriotic man is loyal to his country and to the community in which he lives. If he is consistent he will give first preference to Canadian-made goods when making purchases. He will also stand loyally by his local dealer.

Ready-made Medicine.—You need no physician for ordinary life when you have at hand a bottle of Dr. Thomas' Electric Oil. For coughs, colds, sore throat, bronchial troubles, it is invaluable, for scalds, burns, bruises, sprains it is unsurpassed, while for cuts, sores and the like it is an unquestionable healer. It needs no testimonial other than the fact that it will satisfy anyone as to its effectiveness.

British Coal Imports Mostly Canadian. The importation of Canadian coal seems to be a somewhat important factor in meeting the situation caused by the miners' strike in Great Britain. Recently a despatch to the London Times dealing with the receipts of foreign coal, emphasized the fact that nearly all the vessels arriving at Glasgow with coal cargoes were Canadian.

Our slogan for the coming year should be, "Buy at Home." Add to your own and your neighbor's prosperity by keeping the money circulating in our own district.

It is a wise fish that can read between the lines.

### CUTICURA

#### SOOTHES SKIN TROUBLES

Bathe with plenty of Cuticura Soap and hot water to cleanse and purify. Dry lightly and apply Cuticura Ointment to soothe and heal. Cuticura Talcum soothes and cools the skin and overcomes heavy perspiration. Delicate, delightful, distinguished. Soap 25c, Ointment 25c and 50c, Talcum 25c, sold throughout the Dominion. Canadian Depot: CANTON, Limited, 241 St. Paul St., W., Montreal. —Cuticura Soap shaves without soap.

### Rush For Homesteads

Majority Filing on Lands Are From British Isles.

About one hundred and nine entries for homesteads have been filed at the Dominion Lands Office since May 1, as a result of the throwing open by the Dominion Lands Department of areas which were formerly reserved for returned soldiers, officials of the department announced. The majority of homesteaders filing on these new blocks of land are newcomers from the British Isles, and are of an industrious and energetic type.

### EPIDEMIC OF DYSENTERY

It affects many people more in winter than in summer—in the one case it is due to improper eating—in the other to congestion excited by cold. For cramps, colic, stomach pains and a couple of times usually removes the trouble very promptly. If there is pain, relief is almost immediate. For cramps, colic, stomach pains and the like. Nervine in sweetened water is certainly a wonder, 35c at all dealers.

Demonstrated. In one way it would be a pity to deny the privilege of free speech to the local disciples of Lenin and Trotsky. The more they are listened to the more they make it plain that no plan of social reconstruction could conceivably be a success, if it depended upon them for its carrying out.—Toronto Telegram.

Silenced the Heckler. Hecklers do not get much change out of the Right Hon. Sir L. Worthington-Evans, the new British secretary for war.

While addressing an election meeting a woman, who appeared to be highly incensed at something he had said, shouted out, "If you were my husband I'd give you poison."

"Madam," replied Sir Laming, "if you were my wife I'd take it."

Miller's Worm Powders will purge the stomach and intestines of worms so effectively and so easily, and painlessly that the most delicate stomach will not feel any inconvenience from their action. They recommend themselves to mothers as a preparation that will restore strength and vigor to their children and protect them from the debilitating effects which result from the depredations of worms.

### Our Lignite Tests Interest States.

The United States Department of Interior is watching closely the results of the experiments in Saskatchewan in briquetting lignite. This came to light in connection with efforts to get the U.S. Government to experiment with briquetting Dakota lignites. The Interior Department is holding off to ascertain what success attends the Canadian experiments.

China's coal supply, which is virtually untouched, is believed to be sufficient to supply the wants of the human race, at the present rate of consumption, for at least a thousand years.

### Closed Season For Beaver.

In order to give the utmost protection to beavers in the province, a bill has been passed by the Manitoba Legislature whereby no beaver may be killed in this province north of the 53rd parallel after May 1, 1921, until November 1, 1925.

### Planting a Tree.

"Only God can make a tree," said the poet. Yes, but almost anyone can plant a tree, and everyone who plants a tree of the right sort in the right place does a public service.—Hamilton Herald.

Patronize your local merchant and thereby help to build up your home town and community.

### Wedding Gown For The Summer Bride

By Marie Belmont.

Beautiful lace is combined with exquisite white meteor in this attractive wedding gown. It is designed with a panel of the meteor in the front and back. The corsage with its wide draped sleeves is made of the lace. The sides are also cut from the lace and elaborated with irregularly cut cascade panels that give a pretty flare to the gown. A giraffe of satin heavily beaded modifies the side bouffant, while small handmade flowers join the panels on the shoulders. The veil of white tulle is held in place by a spray of orange blossoms and white roses.

### Looking For A Bitch.

Tramp—Can you assist me along the road, mum?  
Lady—Personally I cannot, but I can unchain the dog and I know he will be pleased to do so.

### POSSIBLY YOUR OWN WIFE

She may not look so young and pretty as she used to. If her cheeks are hollow and pale, if she is tired and nervous, her system needs a good regulating with Dr. Hamilton's Pills, a real medicine that is noted for restoring the bloom of health to sickly girls and women. Dr. Hamilton's Pills tone up the entire system. Complexion quickly becomes rosy, spirits rise, strength increases daily. Health, vigor and good looks will soon return to a faded woman, if she uses Dr. Hamilton's Pills. Sold everywhere, 25c per box, or from the Catarthzone Co., Montreal.

Demand For Homesteads. There has been a great increase in homestead entries in the Dauphin land district during the past twelve months.

Paper mache wheels are to be fitted to the trains on the Paris underground railway, to make them more nearly noiseless.

### Catarth

Catarth is a local disease greatly influenced by constitutional conditions. HALL'S CATARTH MEDICINE. Tonic and Blood Purifier. By cleansing the blood and building up the system, HALL'S CATARTH MEDICINE restores normal conditions and allows Nature to do its work. Druggists. Circular free. W. J. Chesley & Co., Toledo, Ohio.

Spend your money at home, thereby helping your own town and local merchants.

An Oil of Merit.—Dr. Thomas' Electric Oil is not a jumble of medicinal substances thrown together and pushed by advertising, but the result of the careful investigation of the curative qualities of certain oils as applied to the human body. It is a rare combination and it won and kept public favor from the first. A trial of it will carry conviction to any who doubt its power to repair and heal.

### Closed Season For Beaver.

In order to give the utmost protection to beavers in the province, a bill has been passed by the Manitoba Legislature whereby no beaver may be killed in this province north of the 53rd parallel after May 1, 1921, until November 1, 1925.

### Children Cry for Fletcher's

# CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

### What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulence, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

### GENUINE CASTORIA ALWAYS

Bears the Signature of

## J. R. Love Starts Campaign at Irma and Jarrow

(Continued from First Page.)

to the Wainwright Constituency. He first dealt with the road situation and hoped the Premier in his endeavour to secure votes for his candidate would not fail to drive over the road from Wainwright to Jarrow. The Government may claim they have spent large sums of money on roads in this constituency but what have we got for the money spent. The Government at the present time are making a bluff at building a trunk road from Kinsella to Wainwright, which should have been built years ago. But the people have been fooled before, and now they know it is not for roads that the peoples money is being spent but for votes. The Speaker then attacked the hospital situation showing how the government had repeatedly side-tracked all efforts to secure Hospital accommodations in this Constituency. It appeared that the government was financing only one style of hospital and it was too expensive and too elaborate for the ratepayers of the Constituency of Wainwright. Next Mr. Love referred to the rural telephones. He mentioned that the increasing telephone rates were due to inefficient manner in which they were handled. He referred to one line which had been built for the sole use and benefit of one particular good friend of the government which had cost the people of the Province twenty three times the total revenue that has been collected since the line was constructed several years ago. There seemed no doubt in the minds of those present that the Wainwright Constituency had not received a square deal from the present Government.

The speaker then asked the question as to whether the electors wished to re-elect an autocratic government which only considered the interests of its own constituencies, or whether they would support a farmers government which stood for a square deal for all districts. The Candidate then dealt with the principles which the U. F. A. stood for. He emphasized the various planks on the U. F. A. platform maintaining it to be sane and logical, in its origin and designed to meet the needs of all classes of the people. Mr. Love closed his address by asking for the earnest support of all the people, be they farmers, women, merchants or professional men, who believed that the people themselves should control the destinies of the country, and not the selfish interests of "special privilege" in its various forms. The meeting closed by singing "God Save the King," and enthusiastic cheers for the success of the U. F. A. Candidate.

## The Farmers Political Movement.

(By J. R. LOVE)

Many people to-day fail to understand the meaning of the United Farmer's Political movement. Why have the farmers as an organization entered politics? Have they a right, and are they justified in doing so? As we glance over the history of our country we see period when the people of the rural districts of Canada have united for political action. They representing the true national mind of the people, have spoken and their words have been acted upon in no uncertain way. In the early history of our country it was the pioneers in the eastern forests who left their work to support Wm. Lyon McKenzie in his fight for personal liberty against the autocratic power held by aristocratic land owners of the day. Later it was the pioneer farmers of the east who fought for Sir. George Brown in his struggle for more representation in parliament.

In the past forty years the farmers have taken little part in active political thought and action. Their time and energy has been devoted to the industrial and agricultural development of the country, rather than to that of politics. Consequently it has given "special privilege" the opportunity of consolidating his position in the "lobbies" of the parliament buildings the result of which the masses of the people are just beginning to realize. It is true the old liberal party, was at one time the peoples party, however during their regime of power from 1896 - 1911, they failed to withstand the juicy appeals of "special privilege". They as a party fell victims to the same influences as their predecessors Sir. Wilfred Laurier vainly tried to break the chains in 1911 with the reciprocity issue but the enemy was too strongly entrenched. And soon again we find the farmers and the rural people of Canada expressing the national consciousness of the nation.

From the Rockies to the shores of Nova Scotia they are uniting as a political organization. They are going to rescue the National Policy of Canada, which for the past forty years has been warped, contracted and misguided to suit the selfish interests of special privilege which has waxed fat under the shades of protection for so many years.

Is the farmer prepared for the task before him? For the past fifteen or more years the local farmers and local farm women's associations have been springing up all over Canada, especially in the West. The farmers are organized to study the social, financial, and economic affairs of the districts. They have the practical control of one of the three forms of government already—the Municipal government in the rural districts. Through this training and progress the farmer has naturally prepared himself to enter the larger areas of political action,—the provincial and federal fields.

Now the question arises if he is prepared, is he justified in taking political action in provincial and federal affairs at this time? The Farmers Political Movement represents the interests of the rural classes of Canada. The rural population of Canada to-day represents fifty-five per cent of the total population of the country—sixty-four per cent of the population of Western Canada, and about two thirds of the population of Alberta.

Then by virtue of their numerical strength alone, are justified. But there are more reasons than that. The far-

## Remember the Irma Chautauqua July 25-26-27

### The Big Event in Irma after the Election.

There are more at stake to-day than they ever had before. The Provincial debt of the Province and the National War Debt of Canada is primarily the farmers problem. It is up to him to produce the products to make up the exports which in turn must pay the debts of the country. Therefore he has a right to denounce the high protective tariff that has existed so long, a right to ask for better trade relationship with the United States and other Countries and a right to demand better markets for his products. Our Immigration Policy which causes more people to leave the country than to remain in it is not a sign of progress but a sign of decay. The fact that there only about two people for every square mile in Western Canada means that for the next forty years this country is an Agrarian country—a country of farmers and pioneers. They as the real builders of the nation have a right to design the foundation upon which it is to be built. They are willing to come into a wilderness not for luxury, not for comfort, nor for ease. They come here for optimism, with a faith in the future of the country, and a hope that on these western plains will arise a prosperous and progressive nation of virile, loyal, and broad-minded men and women. They understand the problems they are up against and the conditions they must face united, as a political organization, have a right to enter both provincial and federal political arenas. They are not a class organization. Their interests are those of the merchants and professional men throughout the country. If agriculture fails the merchants and professional men suffer. If agriculture succeeds everybody prospers. The Old Party Political Machines are not made up of the true democratic representatives of the people. The Old Party Machines have been controlled and governed by "special privilege" interests which through the machine controls the representatives elected by the people. The U. A., and U. F. W. A. political organization is an inevitable movement towards the obtaining of realization of a better and truer democracy. The U. F. A. representative is controlled by no political Party Machine. He is controlled solely by the organization of men and women which selected him to be their representative. If he fails in his duties, or if he is disloyal to the cause for which he stands his electors have the right to recall him. Thus another stage in the progress of Political reform in Canada has come from the national mind of Canada as represented by the voice of the farmers political organization. It is hoped that every elector in the Wainwright constituency who believes in sane political reform and sound, progressive policies will on the 18th of July, paddle his canoe on the irrevocable tide that is about to sweep the U. F. A. into political power in the Province of Alberta. If you believe in the principles of the U. F. A. political organization, then support the cause on election day.

### To the Electors Wainwright Constituency:

Ladies and Gentlemen—  
In view of the fact that my name was more or less in evidence as a possible choice for the U. F. A. and the U. F. W. A. Provincial Convention in Wainwright I wish to congratulate the delegates on their choice.  
The electors of Wainwright constituency have in J. R. Love a man well qualified to represent their interests whether urban or rural.  
Any man who is qualified by natural brightness of intellect quickened and refined by a University Education, and at the same time imbued with a love for farm life and work is certainly a combination that should appeal to all thinking people as well suited to represent us in the management of our public affairs.

The three qualifications that have been referred to in the other candidates viz. "Returned man" bona fide farmer and membership in U. F. A. are all embodied in our candidate added to these are his energetic disposition. In athletics, in his college days and in every sphere of action we find him well to the fore. His position as president of the University Y. M. C. A. in Edmonton at the time of enlistment placed him in a position to go overseas with the rank of Captain in similar work in the army. This work proved too monotonous for a young man of Mr. Love's temperament and he preferred to serve in the ranks with his comrades as a Gunner. During the days of intense that made Cambrai so familiar a word to Canadians Mr. Love's services were sufficiently recognised to procure for him a recommendation for a Commission, but feeling the end was in sight he stayed with his comrades to the finish rather than go to England for officers training.

During the period of occupation in Germany Mr. Love's adaptability to circumstances again asserted itself and he served as interpreter between his officers and the Germans.  
We overheard some expressions of opinion regarding our candidate after the election "Why he is a mere schoolboy; just a kid, too young and inexperienced. Let us see J. R. Love is 26 years of age. Many of the leaders of Government in this and other countries entered public life as very young men. To my mind this is a decided advantage. Young men have less to unlearn".

In experience Mr. Love's travels and facilities of observation have been worth more to him than the life time of the average farmer. He was one of a group of nine Canadians that were chosen to tour England, Scotland and Wales at the expense of the British Government for the purpose of gaining knowledge in Agricultural matters. Many weeks were spent in visiting the best breeding establishments in the Old Land where we all have to go for foundation stock. During the period of demobilization he was privileged to attend the Edinburgh University where he studied agriculture and political economy. The fact that Mr. Love chose this way of spending his time overseas when not on war duty, goes to prove his quality of mind and his fitness for leadership in the affairs of his Country.

Our opponents will make strenuous efforts to divide our U. F. A. membership with the argument that all the candidates are farmers. Don't be side-tracked. This is the testing time. Be true to yourselves and to your own organization. Personally I think if chosen as your Candidate I could have rendered acceptable service, otherwise I would not have allowed my name to come before the Convention. Mr. Love's ability to give expression to his views were unknown to me until I heard him at Wainwright consequently I had not thought of him as a candidate. I most heartily endorse his candidature and expect to see him head the polls on the 18th. Yours sincerely  
J. G. Clark

## THE CANDIDATES

NAME	CLASSIFICATION	CONTROLLED BY
Major Harry Strachan, V. C.	Soldier-Farmer Liberal Candidate	Liberal Party Machine
Geo. L. Hudson, M. L. A.	Soldier-Farmer Independent Candidate	Independent of Any Party or Machine
J. Russell Love	Soldier-Farmer U. F. A. Candidate	U.F.A. and U.F.W.A. Political Organization of Wainwright

## A Word from Irma Local U. F. A.

It has come to our attention that a false and unwarranted interpretation is being placed on the action of the delegates from Irma local at Wainwright Provincial U. F. A. and U. F. W. A. Convention, which makes it appear that we have reason to doubt Mr. J. G. Clark's sincerity, or we would not have nominated Mr. J. R. Love from same local.

We as delegates went to Wainwright with open minds as directed to do by our director Mr. J. D. Clark but with the expectation that he in all probability would be the choice of the Convention.

Mr. Love's nomination we thought would take the form of a sort of preliminary canter that would introduce him to other locals in our organization and show them that we had talent in reserve.

When had been in Wainwright a short time we had abundant evidence that the Government Machine was in operation and that Mr. Hudson's following would be largely drawn from those inside and outside of our organization, who would most naturally be expected to support Mr. Clark against the Government Candidate.

This situation was discussed by delegates and the possibility of the Government candidate dividing the U. F. A. vote under these circumstances all appreciate his integrity and his faithful service to our organization.

His action in so heartily making the nomination unanimous and his unwavering support throughout the campaign in view of the awkward and unexpected turn of events is only another evidence of his many characteristics. Owing to the confusion and rush of events we had no opportunity to confer with Mr. Clark as to our best line of action, and he had every reason to expect our support. Mr. Love's warm reception by the convention and the other circumstances referred to were factors that governed our vote.

Signed:— J. R. Love, C. T. Hill, W. T. Barber, Jas. Fulton  
Delegates from Irma Local.

## Questions Asked by Electors:

- (1) "Why all the wild haste on the part of the Gov't in getting before the people? Why not give the people a chance to consider the situation?"  
Ans. There is a law in nature which says "The old order changeth and giveth place to new."
- (2) Why does the Stewart Gov't plead for the support of the cities on the cry "help us from the farmers menace which will lead us to chaos?"  
Ans. Its their last hope.
- (3) Why does the gov't call itself a farmers government in all but name?  
Ans. Because it is customary for Liberals to take a course in farming now days before entering the Legislature.
- (4) Why is Hon. J. R. Boyle trying to ride two horses at the same time?  
Ans. Because he is being tossed on the horns of a dilemma.
- (5) How can Mr. McLung and Mr. Boyle stand on the same platform?  
Ans. Miracles haven't ceased.
- (6) Why did Premier Stewart come to the Wainwright constituency?  
Ans. He is interested in local improvements and good roads.
- (7) What are all the teams working on the government road for?  
Ans. The old scheme of winning votes at the public's expense.

## Dates for U.F.A. Political Meetings.

The following Meetings have been arranged for the U. F. A. campaign.

THURSDAY, CHAUVIN, 2.30 P.M.

Speakers: J. R. Love, and H. E. Spencer

THURSDAY, WAINWRIGHT, 8 P.M.

Speakers: J. R. Love, H. E. Spencer, N. F. Priestley, J. G. Clark

FRIDAY, RIBSTONE, 2.30 P.M.

Speakers: J. R. Love, J. G. Clark

FRIDAY, AUTUMN LEAF, 8 P.M.

Speakers: J. R. Love, J. G. Clark

SATURDAY, BATTLE HEIGHTS, 2.30 P.M.

Speakers: J. R. Love, J. G. Clark

SATURDAY, RANGE DALE, 2.30 P.M.

Speaker: H. E. Spencer.

SATURDAY, HEATH, 8 P.M.

Speaker: H. E. Spencer, E. O. Garneau

SATURDAY, IRMA, 8 P.M.

Speakers: J. R. Love, J. G. Clark

## Premier Stewart Tries to Rally Forces in Wainwright Const.

Monday morning Premier Stewart arrived in Irma to assist his candidate Major Harry Strachan in his campaign in the Wainwright constituency. A large crowd assembled in the Co-op. Hall and listened to an address by Major Strachan. Afterwards the opposition was asked to make any remarks.

Mr. C. T. Hill on behalf of the U. F. A. after complimenting the Premier on his excellent personal record as premier, made several very strong criticisms in regard to his experiences as premier, his endeavor to receive consideration from the different departments in regards to roads, hospital, telephone exchange, drainage etc. in this criticism stating that in most cases he was not familiar with the complaint.

In the evening a large rally was held at Wainwright. Major Strachan was the main speaker. He spoke of his appeal for support on his plea of his being a business proposition with the electors.

Mrs. Hill, a prominent Edmonton Liberal worker, followed with an earnest plea for the support of the ladies. She also attempted to draw considerable criticism to the U. F. A. movement and Independent platform. After Mrs. J. R. Love, U. F. A. candidate, gave a chance to address the meeting.

She took the platform and drew the Premier's attention to several grievances which the electors of the constituency have against the Stewart administration. Mrs. Love also made some telling points on the natural resources question and stated that the farmers cause she alone in the royalty to at least one sixteenth as has been advocated. Mr. Love received very hearty support from his hearers.

The Premier after a very hearty reception endeavored to give a good account of his stewardship as head of the administration especially for the last four years and made a very strong appeal for support at the election Monday.

The popularity of the U. F. A. cause and candidate was very apparent from the good reception given.

## To the U.F.W.A.

TO THE, U. F. W. A.

I appeal to you, as sisters of our organization, also to the ladies who are members in U. F. W. A. locals. I trust you will all feel the responsibility that has been thrust upon us in the last few days.

As citizens of our province it is our duty to support the principles which we as an organization stand for. Too many of us are indifferent as to our duties, but we must remember that if we want a government of the people and one that will stand for equal rights to all, we have got to support it and know why we are doing so.

The time has come when we are going to have a chance as women, to prove that we are going to stand for those high ideals.

I trust that every member will feel her duty to do all in her power for our cause as the time is all too short. Our cause is not only I appeal to the women members of our organizations but to all farm women, also to every woman who wants to stand for a government that will uphold those ideals. Therefore I appeal to every woman on the 18th day of July let every one of us cast our vote, not just because we have the vote, but for the ideal for which we stand.

Mrs. C. E. Miller  
2nd Vice-Pres.

## Experiments With Plants Result in Producing Rust Resisting Varieties

Certain diseases of plants have been successfully combated by the production of resistant varieties. This is the case with flax, wheat, yellow, melon-wilt, etc.

A systematic effort has been made to secure and test every variety of wheat for which rust resistance has been claimed anywhere. In addition, I have tested hundreds of varieties from nearly every wheat growing country of the world. The tests were made not only in the field over a series of years, but also in the greenhouse where the plants were inoculated artificially and where conditions can be made much more favorable for rust development than in the field.

Out of all the varieties tested less than a dozen showed true resistance, and of these none are of commercial value for other reasons unless it be one or two of the macaroni type whose drawbacks are familiar. Practically all the resistant varieties are dumplings or embers. No consistently resistant bread wheats have been found.

When resistant varieties were first secured, crossing experiments were at once begun. Without going into details it may be said that we showed conclusively that resistance was transmitted in crosses and appeared in a certain proportion of the second generation hybrids. At least eight-ninths of the second generation plants are wholly susceptible and may show intermediate grades of resistance. In one series of experiments, for example, 214 second generation hybrids were quite susceptible, while only 21 were resistant. It was also conclusively shown that the resistance present in a few of the hybrids was combined with many at least of the good qualities of the standard variety with which the cross had been made.

The production of good resistant varieties appeared therefore to be merely a question of making enough crosses and raising enough hybrid plants to secure the one resistant plant which would have all the other desirable qualities. It was recognized that this would be a big task because of the small percentage of resistant hybrids and because of the small percentage of these resisters which would possess the desirable qualities of the standard parent. Very large numbers were raised and tested and already in 1919 hybrids had been secured which were quite resistant here at Saskatoon and which at the same time looked very good in regard to the other qualities.

The prospects were completely changed by a very interesting but very disappointing discovery. We had found that pure varieties which had proved resistant for several years had suddenly appeared quite susceptible. We had supposed that this was due to some defect in our work—some unknown lack of precautions. But in 1919 it occurred again for one of our best strains had several of our hybrids. It then became probable and since has been abundantly proved that the discrepancies were due to different strains of rust-strains which differ only in the virulence of their attacks on particular varieties of wheat. By Prof. W. P. Thompson, University of Saskatchewan.

### Shipping B.C. Berries to England.

At the request of shippers of British Columbia, an investigation has been made by the Canadian Trade Commissioner in London, England, as to the possibilities of selling raspberries and strawberries to English jam manufacturers. Great interest was evinced in the project, experimental shipments will be made, and there is strong possibility of a substantial trade being built up in shipping berries in a frozen condition to the overseas jam market.

### Many Sailings From Pacific Coast.

The coastwise and offshore passenger business out of the port of Vancouver during the first quarter of 1921 was approximately 60,000 persons. About 3,000 were bound for Orient ports; the balance to United States, Alaska and British Columbia ports. One hundred and thirty thousand tons of freight and over thirty million feet of lumber and logs were exported.

### Irish Settlers For Manitoba.

Two brothers and their families, numbering in all eighteen persons, arrived at Montreal recently from Dublin, Ireland, on the Canadian Pacific liner "Metagama." They have purchased two thousand acres of farm land in the Lake Francis district of Manitoba.

### Active Immigration

#### Work Is Delayed

Settlers Will Not Be Brought In By Western Canada Colonization Association Until The Provinces Pass The Desired Land Listing Legislation. Preparatory Work Will Continue.

At a conference between the Eastern and Western Directors of the Western Canada Colonization Association it was decided that the successful functioning of the Association depends upon the working out of a joint land settlement plan under which the efforts of the Federal and Provincial Governments will be effectively co-ordinated. Nothing short of such a plan will afford this Association a real basis upon which to carry out the vital national undertaking for which it was created. It is felt that the organization would be unwise to expend a large amount of money in securing high-class settlers only to find the lands increased in price on their arrival. It is realized that all promises and statements made to intending settlers must be fully carried out.

Until these suggestions are given effect so that there will be a reasonable assurance of results in actual land settlement, the directors do not feel justified in authorizing the expenditure of privately subscribed money which would necessarily be involved in a first year's programme. The obligations of the Association to voluntary financial supporters of this movement are such that it must not spend funds generously donated until the pathway of effective colonization is reasonably clear.

In the interval which must elapse before the proposals can be put into effect the Association will continue to press for the co-ordination and legislation necessary, and endeavor to complete the full subscription list of \$1,500,000. The directors hope that the Federal Government will be represented at the proposed conference of Western Premiers and that as a result a uniform plan will be put into operation which will solve the unoccupied land problem and enable the Association to get to work.

Before leaving for Vancouver the Managing Director, Major-General A. D. McRae, C.B., made a brief statement to the press, in the course of which he said—

"I agree with the decision unanimously reached by the Eastern and Western Directors after the most serious consideration of all the circumstances. I am very proud of the splendid support which I have received from the members of the Board, particularly in regard to my land listing plan. In their view, as in mine, the legislation asked from the three Prairie Provinces is absolutely necessary to success. This or similar legislation must be put into effect before the unoccupied land problem is solved. The participation of the Federal Government is most essential. During the interval the association, of course, will have no need for the services of a Managing Director in charge of actual colonization work. Although retiring from my connection with the Association I have agreed to assist in pressing for the proposed legislation before the coming conference of Western Premiers. Knowing something of past immigration movements to the prairies I make bold to say that if given the proper basis to start on the Western Canada Colonization Association has within it the power to greatly assist the Governments in the colonization of our unoccupied lands."

### People Give Haig Ancestral Home.

London—Bemersley, near Melrose, Scotland, the ancestral home of Field Marshal Earl Haig, and from which he takes a part of his title, has been purchased by public subscription and has been formerly handed over to him. His Lordship, in a moving letter of thanks, said: "An old dream of mine rather than a hope has been realized in this gift."

### A Huge Undertaking.

The work of deepening the St. Lawrence shipping channel from the present 30-foot level to 35 feet is progressing steadily, with dredgers continually employed in the river. Most of the deepening has been done between Montreal and Three Rivers and will be continued up to Quebec, taking years to complete.

Patronize your local merchant and thereby help to build up your home town and community.

### Canadians Should

#### Be Optimists

There Is No Danger of Nation Going Bankrupt.

Be an optimist! Anyone can smile and see a great future for Canada when prices are jumping, every one is prosperous and we have a fresh supply of millionaires for breakfast every morning.

It takes a different brand of confidence to smile when prices drop, the dollar looms up as if seen through a magnifying-glass, and the breakfast food has changed from millionaires to bankrupts.

But from all over Canada come reports that indicate a bumper crop. The starvation that stares some countries in the face gives the Dominion a wide berth. There is work for everyone who is not too proud or delicate to work on the land.

And all the while Canada's national resources are increasing in value. There is gold in the Northland, oil in the Arctic circle, and billions of tons of coal waiting to be mined in the western provinces.

It is a period of universal poverty. The world is strewn with bankrupt nations. And Canada looms up among them as one of the few nations—if she is a nation—that can look to the future with a full stomach and a satisfied smile.

Be an optimist!—From the Toronto Telegram.

### Reforestation Plans

Quebec Company Will Adopt Regulations to Insure Permanence of Forest.

An extensive plan of reforesting its timber limits has been decided upon by the Chicoutimi Pulp Company. The company has obtained the services of the Quebec Forestry Department to make a complete survey of its timber reserves and the best method of their exploitation. It is said that the company will adopt most rigid regulations in order to insure the permanence of their forest capital. The outline of the project has already been adopted and the company has lately sent one of its employees to Europe, where he will study European methods on the ground and consult with the best known practitioners in this field.

### Has Station On Farm

Alberta Farmer Was Once 35 Miles From Railway.

James R. Sutherland, owner of what is said to be the largest irrigated farm in Alberta, has taken into partnership H. R. McCrindle, and the farm will be operated by an organization known as the Berry Creek Farming Company. The farm, located at Wardlow, comprises 3,000 acres, and to date about \$40,000 has been expended in irrigation-works, including twelve miles of main ditches. When Mr. Sutherland first took up this land he was thirty-five miles from a railway. Now he has a station on his farm.

### Growth Of Saskatchewan

Province Has Seven Cities and Seventy-Eight Towns.

Saskatchewan's growth since becoming a province in 1905 is very clearly illustrated in recently published figures. In 1905 there were only three cities in the province, whereas there are now seven. Towns have increased from sixteen to seventy-eight, and the number of organized villages from sixty-three to three hundred and thirty-seven. There were two municipalities in the newly created province which have grown in number to three hundred and one at the present time.

### Vancouver Firm Secures Contract.

Between fifteen and twenty tenders have been submitted for the earthenwork construction of the Leithbridge Northern irrigation scheme by some of the largest contracting concerns in Canada and the United States, and the contract awarded to a Vancouver firm. The contract will entail the constructing of fifty miles of main ditches for the 108,000-acre project.

### Road Work In Saskatchewan.

Road work totalling close onto two hundred miles is now in the course of construction or about to be commenced, as part of the Federal aid scheme. Some of the work is being done under contracts awarded by the Saskatchewan Department of Highways, while other sections are being constructed by departmental day labor gangs.

### Gold Bullion From Manitoba Mine.

Fifteen pounds of gold bullion, worth \$3,000, said to have been reduced from 25 tons of ore, have been brought to Winnipeg from Northern Manitoba by the president of the Canadian Mining and Leasing Corporation. The gold was taken from the "Gold Pan" property at Rice Lake.

### Opens Irish Parliament

King George V, who, accompanied by Queen Mary, visited Belfast, and delivered a message to the Irish people.

### British Settlers Arrive

The Majority Had Farming Experience and Considerable Capital.

The Canadian Pacific steamer "Minnedosa," which docked at Montreal recently had a total passenger list of 1,485, almost entirely British and of a very high standard. About eighty per cent, it was stated, were bound for the land, the majority having had previous farming experience and being in possession of considerable capital.

### Seeing Nature With the Ear

Blind Man Names Trees By Sound of Leaves.

A man in the north of England lost his sight at the age of 22. He took to walking about the roads and listening to sounds of life around him.

Now he can recognize the trees by the sound of the wind blowing their leaves; and the noise of the rain upon a field tells him whether it is fallow or cropping.

He was engaged by the Park Committee of three northern cities to name the trees in their parks for them.

"This remarkable instance of the 'second sense' possessed by the sightless, was related by Mr. Adolphus Duncombe, President of the Guild of Blind Gardeners, of England."

### Insurance In Saskatchewan

Total Amount in Force in 1920 Was \$208,006,921.

The total amount of life insurance in force in Saskatchewan in 1920 was \$208,006,921, as compared with \$173,066,392 in 1919, according to statistics compiled by Arthur E. Fisher, insurance commissioner for the province. The amount written during the year was \$57,591,347. Premiums collected during 1920 were approximately a million dollars more than in 1919, premium collection in 1920 being \$6,654,588, as compared with \$5,547,212 in 1919. The claims incurred in this province last year amounted to \$872,299, while the claims paid totalled \$788,102.

### Agricultural Survey

Manitoba to Make a Thorough Investigation Into Rural Life Conditions.

Plans are under way by the Manitoba Agricultural College for a survey of the province as regards effect of weather on production, location of dry areas, successful methods of dry farming, location of frost areas, investigation of kinds of crops best suited to them, types of soil in various territories, insect and plant diseases, difficulties met by stock breeders, various types of power used in cultivating small and large tracts of land, and a thorough investigation into rural life conditions.

### Unique Industry For B.C.

There is a possibility of an Angora woolen industry being started on Vancouver Island, utilizing the wool from the Angora rabbit which, it is claimed, can be spun into the finest and softest wool. The rabbits from which the test was made were bred at Prospect Lake, a short distance from Victoria.

### Air Passenger Service.

Passengers from Great Britain to France may now go by air at one hundred miles per hour at seven cents per mile. Who would have credited this ten years ago?—Victoria Times.

The low coast regions of Africa are almost everywhere unhealthy.

## Old-Time Yarns in the West

By O-GE-MAS-ES (Little Clerk).

(Copyrighted)

(Continued)

The furs were untouched, being wrapped up in canvas, but half of a beautiful cow buffalo robe and half a rabbit skin robe were eaten. Never mind, I was too pleased to see the dogs again, so rewarded the boy handsomely and returned to Fairford in great style next day, the dogs in as good a humor as myself; and then I promised never again would I admit a stranger to our ranks.

When Chief Factor Archie McDonald ordered me to take charge of the Fairford Post, his instructions were to complete the new master's house as soon as possible. Then I was to remove everything of value in the old fort and burn the buildings, which had been up for many years. I was rather curious to know the why and wherefore as to burning the place, so asked him his reason. "Oh," was his reply, "there are some folk stories current at Fairford as to them being haunted, for some bloody-rows took place there in the old drinking days." Well, I reached Fairford all right and took possession of the place. I put an extra man or two on the new building and after settling down began making a few cautious inquiries as to what shape (if any) the spooks were supposed to take. Very little satisfaction was given me, but I noted that Indians and the usual hangers on did not like to be near or in the post after dark.

This establishment was built in the usual way in the form of a quadrangle and surrounded with a wall of hewed timber, at one end of the square the master's house and on each side various store houses, while the front was shut with the wall and large gates. The native men's houses stood at some distance away outside the enclosure. I and my cook, a Lewis man named Malcolm, were the only occupants of the fort at night; not though the only ones, as I always had my four famous dogs, Herod, Nero, Moro and Hero, who, if anyone touched me, would have had a bad time of it, as they were exceedingly fierce if set on to any person or animal. I forgot to mention that a platform of heavy sawn planks ran all round the square and most of these were old and rotten so one had to be careful in stepping for they would tip up and come down with a bang.

One evening, when the place was all quiet, Malcolm came in from the kitchen and I saw by his embarrassed manner that there was something on his mind. "Well, sir, master," and that was as far as he could get. However, I encouraged him, and bit by bit the truth came out. He wanted to go, and sleep in the men's houses, and on asking his reasons, he said he kept hearing noises at night and also felt things moving, though he could see nothing. He hated to go and leave me alone, but he could not sleep the way things were going on. I finally

told him he could go, and after his departure made a careful inspection of the whole premises and saw that all gates were closed and barred. Then, calling my dogs into the hall, I overhauled an old shot gun and loaded it heavily with powder and plenty of wadding, as I thought some attempt might be made through the night to scare me off the premises.

My room was at the front of the house, the window overlooking the square. This I left partly raised but pulled down the blind. Then, placing the gun handy, I blew out the candle and went to bed, the time being near midnight. Just as I was falling asleep I heard a heavy tramp-tramp noise coming round the square on the platform, and I was out of bed like a flash, cocked my gun, and waited developments. The heavy tramping came right on past my window but there was nothing visible, though the night was light enough to see the other buildings plainly. It may have been imagination, but as the noise passed the window I thought I could detect a draught of cold air. Well it is no use disguising the fact that I felt creepy, but just then I thought of my dogs. The noise in the meantime had stopped, so I waited quietly for a repetition, and this came in a few minutes. The same heavy tramping started apparently close to the main fort entrance, then along past the Pemican store, then turning and coming right in front of my window. With that I threw the front door open and set the dogs on it. Out they went with furious growls, and back they came again, hair bristling up, and evidently cowed, as they retreated into the corner and would make no response when I urged them out again. Again, as I had followed them out, I could see nothing, but this time distinctly felt a cold draught air pass. The dogs either felt or saw something that scared them, and it may be the brute creation is more sensitive to non-visible aura's or whatever name it or they might be called than the human kind, or has civilization dulled our perceptive faculties.

It was several weeks before the new residence was ready for occupancy, and during this time I constantly heard the same heavy trampings and other noises, and there was no doubt the dogs were affected, as generally they were joyous creatures always ready to sport or play with me. However, as no ill-effects occurred, I became used to the racket and yet was glad enough after vacating the premises to put a torch to the old fort.

During the same winter a mysterious light accompanied me for some hours on Lake Manitoba, which by its presence, affected my fearless dogs in the same way, but this I have described fully in a former article, entitled Indian Witchcraft.

### German Vessel on St. Lawrence.

The Canadian Pacific liner "Empress of Scotland," formerly the German "Kaiserin Augusta Victoria," has been officially assigned to the St. Lawrence route. The vessel, which is 25,000 tonnage, will make her first sailing in July. With luxurious cabin equipment, built in 1905 especially for the New York run, she will be operated as a three-class boat.

### Dearth of Domestic in the East.

The dearth of domestic servants in the eastern provinces is so great that it is no unusual thing when a party of these greatly desired household helpers are expected from England for the prospective employers to proceed to the emigration sheds on the arrival of a steamer and attempt to hire them there.

When you hear a woman say that she is on the sunny side of forty, it means that she is trying to keep her age shady.

## Automobile Price Reductions Of Western Interest

All-Canadian Car Proves Itself.—New Rock-Levels Anticipate Quantity Reduction.

Western Canada development depends so much upon the extended use of motor cars that recent price reductions interest everyone in practically every family in the West. That, for instance, of the new Overland to less than a thousand dollars at the Toronto factory is of wide importance.

New rock-bottom levels were calculated to be necessary if a complete return to normal conditions was to be accomplished. In the case of the company making the car cited, normal conditions involve factory production on a large scale.

This quantity production was attained last year. It will be remembered that when the Overland Company introduced the Model Four, the radical departure in spring suspension was looked upon as a marked development in light car construction. Much was, therefore, expected of this All-Canadian car. It has now had a year's proving by thousands of Cana-

dian owners, who bought it for its appearance and its quite evident engine efficiency and comfort. They have found it also possessed of unexpectedly great stamina and economy. Getting 25 to 30 miles to the gallon of gasoline appears to be the average experience of owners—some reporting even 35 miles. Ten to fourteen thousand miles with a single set of tires is also common, so that the All-Canadian car has thoroughly proved itself, perhaps nowhere more than in Western Canada.

The 1921 car has many improvements and according to Willy Overland officials, they expect a demand sufficient to keep the factories busy right along. In fact, it is stated that it is upon this expectation that they have based their new prices. Reports from both Winnipeg and Regina branches of this company show a marked stimulation in business during the very first month of the reductions.

**HON. C. R. MITCHELL,**  
Provincial Treasurer**W. V. NEWSON,**  
Deputy Provincial Treasurer,  
Parliament Buildings, Edmonton, Alberta**PROVINCE OF ALBERTA CO-OPERATIVE CREDIT SOCIETIES**

The Provincial Government has provided legislation designed to encourage the co-operation of farmers by adequate credit, longer term loans, lower interest rates, cash prices for purchases, saving of time and labour, and an improved community spirit

Increased Farm Credit depends upon—

- (1) Greater reliability of loans.
- (2) Certainty of repayment.
- (3) Adequate powers of security.

The Alberta Co-operative Credit Act, in its amended form, grants exceptional powers in the matter of taking necessary security, and thus repayment can be safely provided for.

Organization of a Society requires—

- I. Fifteen signatures to petition to incorporate.

- II. Thirty members in good standing to start operations.

- III. Each member to subscribe for \$100 stock on which he pays twenty per cent. in cash and twenty per cent. each year thereafter.

- IV. Affairs controlled by Board of Directors.

- V. Limited liability.

Guarantees of Municipal District and Government are given in accordance with terms of Act.

OF**

**VALUABLE FARM LAND**  
Pursuant to the order of A. Y. Blain Esq., K. C. Master of this Court there will be offered for sale, by A. A. Long, at the Post Office, Irma, Alberta, at the hour of two o'clock, in the afternoon on Saturday the 6th August, A. D. 1921, subject to reservations and conditions contained in the original grant from the Crown or in the existing Certificate of Title, the following lands, namely:

The South-West Quarter of Section Two (2), Township Forty-six (46), Range Nine (9), West of the Fourth Meridian, reserving unto His Majesty, His Successors and Assigns, all Mines and minerals.

The Vendor is informed that there is a frame house, frame barn, granary and pump house on the property. That the fences are in good state of repair and there is a good well on the land. That the land is favourably situated and is two miles from the Village of Irma, and two miles from the school and is of a rolling nature, the top soil is of black loam and the sub-soil of clay.

The property will be offered for sale, subject to a reserve bid. The purchaser will be required to pay down a deposit of 10 per cent of the purchase money, to the solicitor for the plaintiff hereof at the time of sale, and the balance into court, to the credit of this action, within sixty days without interest, or if the purchaser prefers he may pay ten per cent of purchase price to plaintiff's solicitor at time of sale, pay \$1,500.00 into court to the credit of this action within sixty days without interest and execute a mortgage in favor of the Plaintiff for the balance with interest at eight per cent per annum in equal payment of principal and interest on 1st November each of the years 1922, 1923 and 1924.

The purchaser is to take the property subject to all assessments, rates and taxes unpaid subsequent to December 31st, 1920 and in all other respects upon the terms and conditions of the Court, as approved by a Master.

Further particulars may be had at the office of C. G. PURVIS, Solicitor, Viking, Alberta.

DATED at Edmonton Alberta, this 24th day of June A. D. 1921.

### Buy Cascara Bark

Growers in B.C. Can Build Up Large Business.

Recently 5,000 tons of Cascara bark was shipped from Vancouver to British and United States markets. Reports from the United States drug centres say that a great industry awaits the growers of Cascara shrubs and Cascara bark on the British Columbia coast.

### Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and Blood Purifier, and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and restoring normal conditions. All druggists. Circulars free. F. J. Chesley & Co., Toledo, Ohio.

Pelts of coyotes were used during the war as trench coats for British soldiers.

Useful in Camp—Explorers, surveyors, prospectors and hunters will find Dr. Thomas' Electric Oil very useful in camp. When the feet and legs are wet and cold it is well to rub them freely with the Oil and the result will be the prevention of pains in the muscles, and should a cut, or contusion, or sprain occur, nothing could be better as a dressing or lotion.

### Boston Or Bust

A lecturer in Boston told his audience that the earth is 360,000,000,000 miles away from the centre of the universe. That was a very nervy thing to say in a town which calls itself the hub—Detroit Free Press.

### Could Not Sleep

Mr. Earnest Clark, Police Officer, 338 King St., Kingston, Ont., writes:

"For three years I suffered from nervousness and sleeplessness. I believe my condition was brought about by overwork. I had frequent headaches, neuralgic pains and twitching of nerves and muscles. I had indigestion, was short of breath and easily tired. I commenced a treatment of Dr. Chase's Nerve Food, and seven boxes of this medicine relieved me of all my symptoms. I am now feeling one hundred per cent. better than I was, and have to thank Dr. Chase's Nerve Food for the good health I am now enjoying."

Dr. Chase's Nerve Food, 50 cents a box, or \$2.75, all dealers, or Edmondson, Bates & Co., Ltd., Toronto.

### World Happenings Briefly Told

Prisoners in Denver County Jail gave the money they had saved for cigarettes and food to the relief fund for Pueblo, Colo., flood sufferers.

Robert E. Tegler, an old-timer of Edmonton, and sole owner of the Tegler Block, the largest building in Edmonton, died recently.

When plates of ice cream were served to the 1,700 immigrants at Ellis Island, N.Y., the diners thought it a new kind of butter and spread it over their bread.

If both parties, by mutual consent, break an engagement to marry, the man is entitled to the engagement ring, an Ashbury Park, N.J., court ruled.

The Dominion Government has decided to take over and carry to completion the shipyard and the uncompleted dock of the Victoria Shipowners, Limited.

Seeds about 2,000 years old found in the hands of an Egyptian mummy, have sprouted in the conservatory of Wm. Patterson, of Quincy, Mass., and are beginning to bear blossoms like those of the sweet pea.

Gambling in long distance telephone calls is the latest industry in France. The number of phones is so inadequate that speculators have been buying up long distance calls in advance and holding them to retail at fabulous prices.

Nation-wide Fame.—There is scarcely a corner of this great Dominion where the merits of Dr. Thomas' Electric Oil have not been tried and proved. It is one of the world's most efficient remedies for sore throat, lame back and many other ailments arising from inflammation. Rubbed on the skin its healing power is readily absorbed, and it can also be taken internally.

Lake Stocked With Fish. The Dominion Fisheries Branch report during the season just closed shows that upward of 268,000,000 young whitefish were liberated in the Great Lakes and the Lake of the Woods. A large proportion of the eggs are secured from the commercial catch of which, but for activities of the department, would be wasted. The Sarnia hatchery this season set 12,825,000 whitefish eggs to British Columbia.

Missard's Liniment Co. Limited.

Sirs:—I have used your MISSARD'S LINIMENT for the past 25 years and whilst I have occasionally used other liniments, I have never used any equal to yours.

I rubbed between the hands and inhaled frequently, it will never fail to relieve cold in the head in 24 hours. It is also the best for bruises, sprains, etc.

Yours truly,  
J. G. LESLIE,  
Dartmouth.

### Arctic Explorer Returns

Amundsen is Back After Winter With Icebound Steamer

Captain Amundsen arrived at Nome, Alaska, recently. His ship, the Maud, which wintered at Cape Serge, Siberia, lost her propeller in the ice, and she is expected to reach Nome some time this summer for repairs. The explorer, noted for his discovery of the South Pole, and his many Arctic and Antarctic voyages, said he would continue his efforts next year to reach the North Pole by drifting with Arctic ice floes as soon as repairs to his vessel were completed. He spent the winter on board the Maud with one native and three white companions, and said the party experienced few vicissitudes. He reached Nome on the trading schooner Herman, which picked him up at East Cape, Siberia.

### The Dominion Agricultural Returns

Dairy Butter Industry Has Increased During the Past Decade.

The value of all field crops produced in Canada for the year ending March 31, 1920, was \$1,812,915,500, and the value of dairy products \$247,531,352. The number of horses in the country is given as 3,667,369, the number of milch cows as 3,548,437, other cattle as 6,536,574, sheep as 3,421,938 and swine as 3,040,070. During the year 3,788,138 pounds of wool were graded by farmers' co-operative organizations. The dairy butter industry has increased during the past decade from 5,478,304 pounds to 25,356,711 pounds.

### New Road for Peace River.

An agreement has been concluded with the Canadian Pacific Railway, by which that company will construct and operate the Central Canada Railway extension across the Peace River into the Waterhole district. When completed the new road will form part of the Edmonton-Dunvegan and Peace River Railway.

### DISCOVERED TRUE REMEDY FOR SYSTEMATIC CATARRH

A bad case of Catarrh is not an easy thing to treat, and a remedy that makes good, deserves great credit. Catarrhozone certainly fixed up Chas. H. Webb, who writes from Woodstock: "For number of years I was troubled with Systematic Catarrh. Nothing helped me very much. I used Catarrhozone Inhaler and got relief. To build up my system, I used Ferrozone. This combination can't be beaten. They made me well." Your case may also be bad, but Catarrhozone will do for you what it did for Mr. Webb. Two months treatment \$1.00, small size 50c. All dealers of the Catarrhozone Co., Montreal.

### Airmen At Camp Borden

10,000 Airmen Spending a Month in Camp at the Government's Expense.

"Refresher" flying promises to be one of the most popular pastimes in Canada during the summer months this year, when Camp Borden will be in full swing again. Approximately 10,000 airmen in Canada will avail themselves of the opportunity of spending a month in camp at the Government's expense. Since the "refresher" courses were inaugurated at Camp Borden about eight months ago, the ex-air force airmen have done over 2,200 hours of actual flying, covering a distance of approximately 200,000 miles.

### ALMOST HELPLESS FROM ST. VITUS DANCE

The Muscles of the Hands, Face and Body Affected.

St. Vitus dance is a disease of the nerves brought on by a morbid condition of the blood. It is common with children, and attacks girls more frequently than boys. Irritability is frequently one of the first signs noted. The child frets, is quarrelsome and does not sleep well. The jerky movements that characterize the disease come a little later. The limbs and sometimes the whole body jerks spasmodically, and in severe cases the power of speech is affected. Such a child should not be allowed to study, but should be kept quiet, given a nutritious diet, remain out of doors as much as possible. Dr. Williams' Pink Pills will help the blood restore the shattered nerves. The value of these pills in cases of this kind is shown by the following statement from Mrs. Frank Reynolds, Windsor, N.S., who says: "When a young girl I suffered very severely from St. Vitus dance. I could not keep still at any moment. I tried to handle dishes I broke them, and could not safely attempt to hold a thing in my hands. No matter what was done for me I could not control the twitching in my face and body. My parents gave me several remedies, but they did not help me. Then one day my father brought home a half dozen boxes of Dr. Williams' Pink Pills. After two boxes had been taken there was an improvement in my condition. By the time the last box was gone, to my great joy and relief, to my family, my condition was normal, and I have since enjoyed good health. I never lose an opportunity to say a good word for Dr. Williams' Pink Pills." You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Extending Saskatchewan University. The contract has been awarded for the erection of a two story wing to the engineering building at Saskatchewan University costing approximately \$100,000.

I SUFFERED FIVE YEARS Finally Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Paris, Ont.—"For five years I suffered from pains caused by displacement of my organs and in my back. All of this time I was unfit for work and was taking many medicines that I thought were good. I saw the advertisement in the papers of Lydia E. Pinkham's Vegetable Compound and took it faithfully. I am now in perfect health and do all my own work. I recommend it to others, and give my permission to publish this letter in your little books and in the newspaper as a testimonial."—Mrs. D. CASSADY, Box 461, Paris, Ont.

Why women will continue to suffer so long is more than can be understood when they can find health in Lydia E. Pinkham's Vegetable Compound. For forty years it has been the standard remedy for female life, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, irregularities, etc. If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

### A Summer Frock of Batiste

By Marie Belmont.

This charming dress is one that you could easily copy if you are at all gifted in the dressmaking line. The fabric from which it is evolved is a rose colored embroidered batiste which is extremely dainty. The bodice is cut on rather long-waisted lines that follow closely the lines of the figure. The skirt is unusually full and is finished with a scalloped hem. This is outlined with rose lined bands that are exceedingly fashionable. They are also used with equally good effect on the short sleeves and the neckline. A vestee of lace and a rose ribbon girder complete this pleasing creation.

When a mother detects from the writhings and fretting of a child that worms are troubling it, she can procure a reliable remedy in Miller's Worm Powders which will expel all worms from the system. They make causing vomiting, but this need cause no anxiety, because it is but a manifestation of their thorough work. No worms can long exist where these Powders are used.

### Plan Your Vacation Trip Special Summer Tourist Fares to the Pacific Coast.

Special Summer Tourist tickets to Vancouver, Victoria, Seattle and other Pacific Coast points are now on sale daily by the Canadian Pacific Railway. These tickets will bear a final return limit until October 31st, and permit stopovers en route, which gives travellers an opportunity of visiting some of the beautiful resorts in the Rockies, such as Banff, Lake Louise and Glacier, where the Company maintain splendid resort hotels. These tickets are optional via the main line or Arrow Lakes route in one or both directions without extra charge. No expensive side trips necessary.

In addition to the "Trans-Canada Limited" exclusive sleeping car train, a choice of two other daily trains is offered, and as all are equipped with open-top observation cars through the magnificent scenery may be had.

Any Agent of the Canadian Pacific will be pleased to give further particulars and make the necessary arrangements for the trip.

Tourists From United States. Two thousand United States automobiles crossed the International border at Blaine into Canada between May 27th and May 30th. This is the first big rush of tourists for the 1921 season.

### Not Easily Hit.

Lloyd George is the only statesman who has learned anything from the war. He has mastered the art of going to a zigzag course to avoid torpedoes.—New York Evening Post.

Minard's Liniment Lumberman's Friend.

Cactus Makes Natural Compass. One variety of cactus, found in deserts, always points to the south, thus forming a natural compass.

Asthma Victims. The man or woman subject to asthma is indeed a victim. What can be more terrifying than to suddenly be seized with paroxysms of choking while alone, and fairly threaten the existence of life itself. From such a condition Dr. J. D. Kellogg's Asthma Remedy has brought relief to many. It is known and prized in every section of this broad land.

Every dollar spent in your home town is a boost for the community.

## Mrs. Doyle Forced To Live Entirely On Bread And Milk She Declares

"I think it is enough to make anyone happy to enjoy the splendour of the day," said Mrs. John Doyle, 123 John St., North, Hamilton, Ont.

"Last winter I had the 'flu' and, as I had been in a badly rundown condition for several years, it just seemed to wreck my whole system. All through the winter I was down in bed half the time and instead of getting better, I seemed to get worse. My stomach was so badly upset that I had to live entirely on bread and milk. If I ventured to eat anything else at all I would simply suffer agony."

"I would have terrible pains in my stomach and would bloat up so bad that I often felt as if I was suffocating."

Airship Launched For Japan. Messrs. Vickers have launched from their airship shed at Barrow, an airship for the Japanese Government. She is of the Sea Scout class, carrying a gondola and a small crew. A trial flight over Barrow has been successfully accomplished, a high speed being reached.

Mothers can easily know when their child is troubled with worms, and they lose no time in applying a reliable remedy—Mother Graves' Worm Extirpator.

A homing pigeon under average conditions travels about 40 miles an hour.

My nerves were worn to a frazzle and I had frequent headaches. I went to bed tired, got up feeling tired and all through the day hardly had the strength to do a thing.

"But I'm so glad I tried Tanlac, because my suffering is all over now. I just feel splendid, eat whatever I wish, and never have a touch of indigestion. My nerves are steady and I am free from headaches. I sleep perfectly sound and just feel so much stronger than ever. My daughter has taken Tanlac since it restored my health and it has helped her just like it did me. Tanlac has certainly been a blessing in our home."

Tanlac is sold by leading druggists everywhere.

Of Some Use. Short skirts are coming in for much condemnation at church conferences, but it has remained for Chicago to report that short skirts have caused a much smaller street accident record among women and a much larger one among men. There is a "Safety First" argument that seems to have been neglected in the denunciations.—Toronto Mail and Empire.

The little town of Werda, in the kingdom of Dahomey, is celebrated for its temple of serpents, a long building in which the priests keep up wards of 1,000 serpents of all sizes.

## CLARK'S Corned Beef

A good nourishing food, ready to serve and inexpensive. Try it cold or heat in slices and serve with fried eggs instead of ham. No bone, no gristle, no waste and easy with the Government guarantee of purity. Clark's Good Things are made from Canadian Farm Produce and sold everywhere in Canada.

## FREE

1000 WATCHES ABSOLUTELY FREE. Why pay \$50.00 for a solid gold watch when you can obtain a watch free, that will equal for time any solid gold watch made. Fill in correctly the missing letters in the following phrase, and where now marked with a dash.

T-E-S-W-C-H-S-A-E-F-L-Y-G-B-N-T-ED. By filling in the missing letters, and enclosing a stamped envelope with your name and complete direction clearly written thereon, so that we may without delay inform you of your success, and you will receive a watch that you will be proud to own.

While the puzzle may be difficult, it costs nothing to try. See Manufacturing Co. Dept. No. 64 117 Commissioner St., Montreal.

See Manufacturing Co. Dept. No. 64 117 Commissioner St., Montreal.
